07h50 – 08h00	Welcome and introduction	Eduardo Infante de Oliveira Podmaster: Hélder Pereira
08h00 – 11h00	PCI of calcified coronaries. We will rock you!	Brainstormer: João Brito Key opinion leaders: Ricardo Santos Pedro Gonçalves Jorge Guardado Henrique Mesquita Gabriel
11h00 – 12h00	Single vs. two-stent techniques in left main: the impact of the European Bifurcation Left Main Study	
12h00 – 13h00	Lunch break	
13h00 – 16h00	Percutaneous mitral treatment: repair or replacement	Brainstormer: Rita Calé Key opinion leaders: Duarte Cacela Eduardo Infante de Oliveira João Silva Marques Regina Ribeiras Rui Rodrigues
16h00 – 18h30	PCI innovations - Image-guided robotic PCI - Intravascular lithotripsy - OCT ULTREON 1.0 software	Brainstormer: Miguel Menezes Key opinion leaders: Luís Raposo Lino Patrício Sérgio Baptista Diogo Torres
18h30 – 18h45	Conclusions and main messages	Podmaster: Hélder Pereira
18h45 – 20h00	Chillout!	

08:00 – 09:20	TAVI in a patient with coronary disease
09h20 - 10h40	PCI in a patient with prior TAVI
10h40 - 11h00	Late-breaking trial Complete 2-year follow-up from the Evolut low risk trial
11h00 - 12h00	Transcatheter mitral valve replacement and repair: why do we need both?
12h00 - 13h00	Introducing Navitor: a new TAVI solution
13h00 - 13h20	Late-breaking trial Meta-analysis of elective coronary revascularization vs medical therapy alone
13h20 - 16h00	Revascularisation for chronic coronary syndrome and multivessel disease
16h00 - 17h00	Complex bifurcation PCI: what to avoid?
17h00 - 17h45	Advances in investigational mitral and tricuspid therapies
17h45 - 18h30	How CT fusion can empower your structural heart procedures

07h50 – 08h00	Welcome and introduction	Eduardo Infante de Oliveira (APIC, EAPIC) Podmaster: Rui Campante Teles
08h00 – 09h25	Left main bifurcation and PCI	
09h25 – 09h45	Late-breaking trial	Brainstormer: Gonçalo Morgado
	EBC MAIN – the European Bifurcation Club left main coronary bifurcation study	Key opinion leaders: Cláudia Jorge Miguel Santos Pedro Cardoso Luís Morais
09h45 – 11h00	TAP technique for bifurcation PCI	
11h00 – 12h00	Local debate LMT and bifurcation	
12h00 – 13h00	Lunch break	
13h00 – 16h00	Percutaneous tricuspid valve repair:how to perform it	Brainstormer: Pedro Carrilho
16h00 – 17h00	Advancing solutions for tricuspid regurgitation patients: introducing TriClip G4	Key opinion leaders: Manuel Almeida Marisa Trabulo Tiago Nolasco Luísa Branco
17h00 – 17h30	Local debate Tricuspid valve intervention	
17h35 – 18h00	Conclusions and main messages	Podmaster: Rui Campante Teles
18h00 – 19h00	Chillout!	

08h00 – 09h30	EAPCI-PCR Fellows Course – your first TAVI procedure
09h30 – 11h00	TAVI in bicuspid aortic valve
11h00 – 12h00	Redefining hypertension management with renal denervation
12h00 – 13h00	Improving personalized vascular care using novel technologies: how can I start?
13h00 – 16h00	Clinical applications of IVUS, OCT and other intracoronary imaging techniques: practical simulation-based learning
16h00 – 17h00	A case-based approach: finding balance between bleeding and ischemic risk
17h00 – 18h00	Antithrombotic therapy in contemporary PCI: back to the future
